

## Downloading Technical Publications

A technical publication download option is available on the AGCO Tech Pubs site. This information is provided as a guide to assist users with the process of downloading a technical publication.

Important points to consider when selecting a technical publication as a digital file download:

- **Digital publications are intended for on-screen viewing. Print capability is very limited.**
- **Printing of a digital downloaded publication is limited to a maximum of five pages at a time.**
- **Downloaded publication files are locked, the files cannot be copied and cannot be shared.**
- **Download purchases must be downloaded, opened, and viewed using the same device.**
- **The Flux Player viewer (provided) must be used to access, download and view the publication.**
- **Each download purchase can be downloaded and viewed on up to three separate devices.**

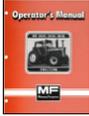

Downloaded publications and the associated Flux Player app will accommodate numerous devices and operating systems, including most tablets and smart phones. Approved operating systems and how the Flux Player app is accessed, are provided below. This information is also provided when the download order is placed:

- **PC (Windows)** – Intel/AMD based Windows 7 or newer. A link to access the viewer will be provided.
- **Mac (OS X)** – Intel based OS X 10.7 or newer. A link to access the viewer will be provided.
- **Android** tablets and phones – Viewer is available from Google Play.
- **iOS** iPhone, iPad, iPod Touch – iOS 9 or newer. Viewer is available in the Apple App Store.
- **Kindle Fire** (Amazon) Tablet – Viewer is available from the Amazon App Store.
- **Chrome OS** – Viewer is available from Google Play.

Download items can be combined with standard items and custom media selections in the shopping cart. The price shown for download item includes the download fee.

- The shipping/handling fee associated with standard item and custom media orders, does not apply to orders having only downloads.
- Mixed orders containing standard and/or custom media items in addition to download items are subject to the shipping/handling fee associated with the standard items and/or custom media items on the order.

Dealer service libraries, instruction sheets, wall charts and publications comprised of multiple components and/or those containing storage binders are not available digitally and cannot be selected for download. Excluded items will be "blocked out" on the site indicated as "Not available as a download or on custom media."

## Downloading Technical Publications

A condition may exist with a new publication or a publication that has not been requested digitally, where the publication is indicated as being available as a download item but the file has not been staged to the “Cloud”. When this occurs, the item cannot be added to the shopping cart as a download item. A message indicating this condition will be displayed.

When this occurs, the user will have the opportunity to “Click Here” and then enter an email address and be notified when the publication has been staged to the “Cloud”. When staged, the item can then be ordered as a download item.

Search and select the publications as desired and add them to the shopping cart. Use the orange Select button to select items for download. When complete, proceed to checkout.

In Verify Cart during checkout, items selected for download will be shown as **\*\*Download Item\*\*** beneath the publication number. Download items will have the quantity (QTY) of “1” and the quantity cannot be changed. Items can be deleted from the cart if they are no longer desired.

Continue through the checkout process. With download items, a Flux Player account will be required. When a download item is in the cart, this information is required to proceed.

If you already have an account, provide your Flux Player username (email) and password and then press Submit.

If you require an account, select “New user? Signup here” and you’ll be directed to new account setup screen (detail shown next page).

- AGCO publications are protected and must be viewed using the Flux Player viewer.
- Flux Player is a free application for numerous operating platforms (computer and hand-held).
- Publications can be downloaded/viewed on up to three concurrent devices.
- Links to download the viewer and access the publications purchased will be provided following checkout.

Flux Player and FlickRocket are owned and supported by ACE GmbH software, Dortmund Germany

# Downloading Technical Publications

If you do not have a Flux Player account, one will need to be created. Provide your credentials in the New user signup screen. The username needs to be in (your) email format and the password to your choosing. When complete select “Signup”.

When you submit (signup) with your Flux Player credentials and successfully place your order, these credentials as well as information regarding your download purchase will be passed from the AGCO Tech Pubs site to the Flux Player site.

Proceed through the checkout process adding your billing address and payment information. Review the information and then place your order.

The order confirmation screen received will contain information regarding various operating systems and necessary links or information instructing the user how to locate the Flux Player application.

Locate and install the Flux Player for the device and operating system being used.

Open the Flux Player viewer.

Sign in using the Flux Player ID (email) and password provided during checkout. For subsequent sign-on, re-entering the user credentials is usually not required.

The screenshot shows a web page for creating a Flux Player account. At the top, there is a navigation bar with links: Product Search, Verify Cart, Address Confirmation, Shipping Options, Payment, and Place Order. Below this, a message states: "To create a Flux Player account to access, download and view publications purchased, please provide and submit the information below. Username needs to be in an email format." There are four input fields: Flux Player Username, Confirm Username, Flux Player Password, and Confirm Password. A red "Signup" button is located below the password fields. A link "Returning user? Login here." is also present. At the bottom, there are three bullet points: "AGCO publications are protected and must be viewed using the Flux Player viewer.", "Flux Player is a free application for numerous operating platforms (computer and hand-held).", and "Publications can be downloaded/viewed on up to three concurrent devices." A link "Links to download the viewer and access the publications purchased will be provided following checkout." is also provided. The footer text reads: "Flux Player and FlickrRocket are owned and supported by &C F GmbH software Dortmund Germany".

The screenshot shows an "Order Receipt # 1821194" page. It includes a "Home" and "Print Receipt" button. The main message is "Thank you, your order has been placed." Below this, there is a red banner that says "Download Flux Player" and "You can consume your content on multiple platforms." A row of icons represents different operating systems: Windows, Mac OSX, Android, IOS, Amazon, and Chrome OS.

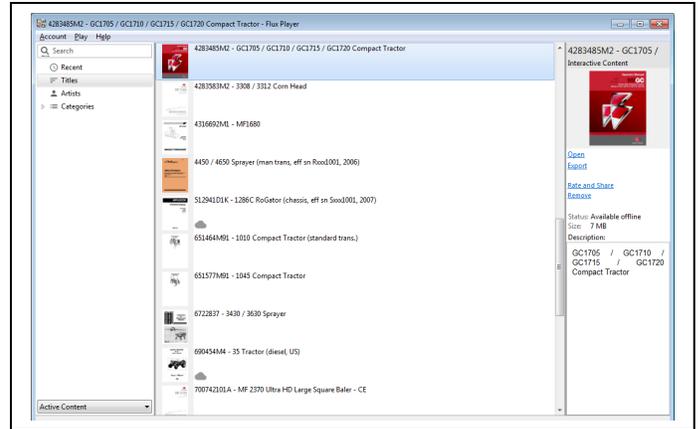

The screenshot shows the Flux Player application interface. At the top, there is a menu bar with "Account", "Play", and "Help". A yellow warning banner at the top reads: "The user could not be authenticated. Please sign in." with "Sign In" and "Dismiss" buttons. On the left, there is a sidebar with a search bar and navigation options: Recent, Titles, Artists, and Categories. The main area displays a large play button icon and the message "There is no content available in this category." At the bottom, there is a playback control bar with "On this computer" and playback buttons.

The screenshot shows the Flux Player application interface with a "Sign In" dialog box open. The dialog box has a title bar "Sign In" and a close button. The text inside says "Sign in with your email and password". There are two input fields: "Email:" and "Password:". Below the fields are two buttons: "Forgot password?" and "Sign In". A "Cancel" button is also present at the bottom right of the dialog box. The background shows the same application interface as the previous screenshot, with the "Sign In" button in the top right corner of the main window highlighted.

## Downloading Technical Publications

With the information provided during Tech Pub checkout, an account with Flux Player will have already been created. When the user installs, launches, and signs in to Flux Player using those credentials, the publications purchased as a download will appear.

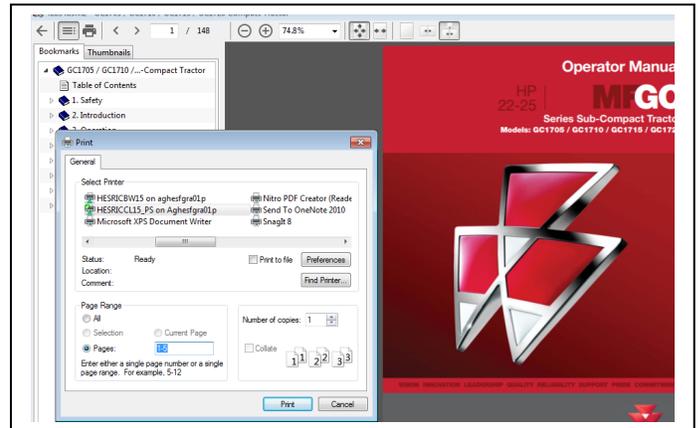

The publication can then be selected and downloaded to the user's local device. It is not possible to open and view a publication on-line. The publication must be downloaded and viewed using Flux Player.

Once downloaded, an Internet connection is no longer required. The document and viewer are fully functional and portable.

As previously stated, printing of the document is restricted to five pages at a time. When print is selected, the user will receive a message "You may only print 5 pages at a time". After proceeding to the print dialog box, the user must specify a range of pages in the Page Range box. If the pages are not selected, the user will get an error.

**Note: Some of screens shown in this instruction may be taken from test or development screens. In actual practice, the screens may vary slightly from those shown.**
